

ASHISHKUMAR MAURYA

Passport: AM521284 **Date of birth:** 21/11/2002 **Place of birth:** Mirzapur, Uttar Pradesh, India

Phone number: (+91) 8169229715 **Email address:** maurya21ashish@gmail.com

Home: 400074 Mumbai (India)

ABOUT ME

Ambitious final-year B.E. student in Artificial Intelligence and Data Science with hands-on experience building full-stack AI platforms and deploying production-grade web applications. Passionate about computer vision, NLP, and AI for accessibility. Seeking an MS program in Germany to deepen research expertise and contribute to cutting-edge AI development. Committed to expanding knowledge through international study opportunities while contributing to academic excellence and cross-cultural learning experiences.

SKILLS

Technical Skills

Artificial Intelligence / Machine Learning / Computer Vision / Natural Language Processing / C++ / Python / C / JavaScript / HTML / CSS / React.js / Flask / SQL / GitHub

Interpersonal Skills

Detail Oriented / Critical Thinking / Cross-Functional collaboration / Strategic Supervision / Process Optimization / Resilience

WORK EXPERIENCE

Valnee Solutions – Mumbai, India

Frontend Developer Intern

[08/07/2025 – 15/08/2025]

- Contributed to development of an AI-powered advertising intelligence platform to generate data-driven insights and support competitor analysis.
- Designed and implemented landing page and multiple feature pages using Next.js; built modular, reusable UI components.
- Improved platform scalability and maintainability through component architecture; ensured fully responsive design across devices.
- Collaborated with development team to maintain clean UI structure and consistent design standards across the application.

VES Institute of Technology – Mumbai, India

Full Stack Developer Intern

[20/05/2025 – 20/09/2025]

- Developed a full-stack women's health platform focused on menstrual health awareness and digital healthcare accessibility.
- Implemented key features including doctor video consultation, symptom tracking, diet planning, and educational content modules.
- Built responsive frontend using React.js; developed backend services using FastAPI (Python) to manage application logic and data processing.
- Developed backend services using FastAPI (Python) to manage application logic and data processing.
- Integrated frontend and backend components to deliver a complete end-to-end web application experience.

EDUCATION AND TRAINING

Secondary School Certificate Examination

Model High School [06/2019 – 05/2020]

City: Mumbai | Country: India | Final grade: 82.8 Percentage

Higher Secondary Certificate Examination

Shree Sanatan Dharam Vidyalyaya [06/2021 – 05/2022]

City: Mumbai | Country: India | Final grade: 69.17 Percentage

Bachelor of Engineering in Artificial Intelligence and Data Science

Vivekanand Education Society's Institute Of Technology [11/2022 – 06/2026]

City: Mumbai | Country: India | Final grade: CGPA : 8.17

PROJECTS

AI-Based Assistance and Navigation for the Visually Impaired

- Developed the entire AI pipeline speech recognition, computer vision, OCR, and Vision Language Models (VLMs), backend intelligence, and API communications
- Implemented object detection, obstacle navigation, currency recognition, and text reading using fine-tuned YOLO and depth estimation models.
- Designed intent-driven architecture using LangGraph; integrated Groq Whisper, Groq Vision, and ElevenLabs for real-time audio response.

Link: <https://onevision-ai.netlify.app/>

Health Environment Platform

- Developed an AI-driven health platform designed to provide personalized health insights.
- Implemented LLM-based medicine analysis and disease prediction features.
- Built a fingerprint-based blood group detection module using machine learning models.
- Integrated an AI-powered diet planner to generate personalized nutrition recommendations.
- Designed the system to deliver accurate and user-specific health insights through trained ML models

CERTIFICATIONS AND ACHIEVEMENTS

AWS Academy – Cloud Developing

Hands-on experience in cloud application development and AWS services.

AWS Academy – Cloud Foundations

Understanding of cloud computing concepts and AWS architecture.

NVIDIA – Fundamentals of Deep Learning

Knowledge of neural networks and core deep learning concepts.

NVIDIA – Rapid Application Development with LLMs

Built AI applications using large language models and modern workflows.

MathWorks – Image Processing Onramp

Applied image processing techniques using MATLAB.

DataAIVerse– 1st Runner-Up

Project Exhibition & Poster Presentation

Mastek Deep Blue Hackathon – 3rd Runner-up

Ranked among top teams out of 1000+ participants.

Hack-AI-Thon 3.0 – Finalist

Developed an AI-based solution in a 24-hour hackathon.

IdeaThon - Winner

Idea Presentation Hackathon

LANGUAGE SKILLS

Mother tongue(s): Hindi

Other language(s):

English

LISTENING C1 **READING** B2 **WRITING** C1

SPOKEN PRODUCTION B1 **SPOKEN INTERACTION** B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
